## LABOR UNIONS AFTER THE STEEL TRUST.

WILL PROPOSE THAT WORKMEN HANDLE NO STEEL UNLESS MADE IN UNION MILLS.

PITTSBURG, Dec. 13.—Results of the greatest importance to the industrial world are expected to follow the conference which was begun here today by officials and leaders of the American Federation of Labor and the various organizations affiliating with it. The purpose of the conference, as outlined in the official call which was issued by the Toronto convention last month, is to plan a course of action against the alleged "open shop" policy of the United Steel Corporation, commonly known as the Steel Trust.

The threatened conflict promises to develop into one of the greatest fights in the history of the labor movement in America. A victory over the Steel Trust, which, according to the declaration of the recent federation conference, is the "most formidable enemy" of the labor movement, would have a tremendous moral effect in labor warfare elsewhere and for this reason those who will conduct the campaign are preparing to extend every energy to make the fight successful.

As one of the steps of the campaign to be waged against the big industrial combination it is proposed to have the building trades department of the American Federation of Labor refuse to engage in any building operations where the steel used is not made in union mills. It is admitted that this would result in a serious tie-up of the building industry.

## THE BELGIUM MONARCH NOW REPORTED DYING.

DEATH IS HOURLY EXPECTED—HIS WEALTH AMOUNTS TO HALF A BILLION DOLLARS.

BRUSSELS, Dec. 13.—It was announced at noon that King Leopold was dying and the end is expected within 24 hours. Cardinal Mercier administered extreme unction, the last solemn rites of the Roman Catholic church.

Prince Albert is at the palace ready to assume the reigns of government. The cabinet is practically in continuous session.

Leopold is probably the most hated monarch in the world, outside of his own country. He is 74 years old, and only last Friday entered upon the forty-sixth year of his reign.

His family life has been the European court scandal for many years. The Congo horrors, attributed to him, are well known.

The one great disappointment of his life was the death of his only son. Thereafter, he gave himself up to the life of pleasure. He was a keen politician, a linguist and a business man.

The enormous Congo possessions, which were heretofore his personal property will revert to the government.

W. F. Ayres has purchased the boat, "Aye, Aye, Sir," from her owner, Mrs. W. A. Dixon, of Buffalo, N. Y.

## CRIMINAL COURT WILL COMMENCE GRIND TOMORROW.

Criminal Court will convene at DeLand Tuesday morning and commence the usual bi-monthly grind. The dockets this term is not large, but Solicitor Fish may file several more informations before the opening of Court.

Those who have been summoned on the regular venire as jurors are: W. W. Austin, E. R. Drake, John Lynch, T. Clauson, A. W. Chisholm, C. T. Pent, I. F. Humphries, J. K. Maley, T. J. Baker, R. R. Smallwood and J. T. Moody.

## PRESIDENT LOUIS W. HILL, BRIDGE CONNECTING TWIN CITIES AND THE SEATTLE WATER FRONT.

No strike during the last twenty-five years in the great northwest has resulted in such a complete paralysis of business as that now being carried on by the switchmen of the thirteen railroads connecting St. Paul with the Pacific coast. Every line of industry dependent on the movement of supplies is seriously affected, and the territory between the Twin Cities and the Seattle water front is suffering from business stagnation. Added to the difficulty of obtaining necessary supplies is the prospect of a coal famine. Mills and factories are closing, and there are already more than 12,000 men idle. Although Louis W. Hill, president of the Great Northern, admits that a general strike would be a national disaster, he declares that it is impossible for the railroad interests to bring about a peaceful solution of the problem.

## MEXICO WILL TAKE HAND IN NICARAGUAN AFFAIRS.

MEXICAN GUNBOAT NOW ON ITS WAY TO TROUBLED WATERS—CREEL TO CONFER WITH SECRETARY KNOX.

WASHINGTON, HDec. 13.—Dispatches to the State Department today indicate that Mexico expects to take a hand in the settlement of the Nicaraguan difficulties. A Mexican gunboat is now on its way to Corinto, meanwhile Senor Creel, the representative of Mexico, is awaiting a conference with Secretary Knox tomorrow.

The State Department don't know his mission.

## PRESIDENT APPOINTS JUDGE LURTON TO SUPREME COURT.

WASHINGTON, Dec. 13.—The nomination of Judge Horace Lurton, circuit judge of the Sixth Judicial Circuit, at Nashville, to be associate justice of the Supreme Court, succeeding Justice Peckham, has been decided by President Taft. Lurton's name went to the Senate today.

## YOUNG ZELAYA SUED FOR \$100,000 DAMAGES.

NEW YORK, Dec. 13.—Ambro Zelaya, youngest son of President Zelaya, of Nicaragua, is expected to appear in the Supreme Court tomorrow, to defend himself in a suit for \$100,000 damages for breach of promise brought by Juliet Hero, a Grecian artist model. Zelaya is a law student at Columbia.

The girl promises to display impassioned love letters from the young Nicaraguan.

## GREATEST DIAMOND THEFT IN HISTORY OF CRIME.

ONE HUNDRED THOUSAND DOLLARS' WORTH OF GLITTERING STONES ARE MISSING.

NEW YORK, Dec. 13.—Confessing themselves utterly unable to solve the mystery of the disappearance of one hundred thousand dollars' worth of diamonds and jewelry from the apartments of Mrs. John Jenkins at the Hotel Lorraine on Fifth avenue, last Saturday, the police today sent a general alarm to every city and town in the country, asking a search of pawn shops.

The robbery is one of the greatest of its kind in the police annals.

Dr. Mathews and wife, of Cape Cod, Me., came in the latter part of last week and have taken a suit of rooms in the Hall flat on Palmetto avenue.

## TOBACCO TRUST HEARING BEFORE SUPREME COURT.

BOTH THE GOVERNMENT AND CORPORATIONS ANXIOUS FOR A DECISION—MOST IMPORTANT OF TRUST CASES.

WASHINGTON, Dec. 13.—There is a feeling in the Department of Justice that the case of the United States vs. the United Tobacco Company and others, set for hearing before the United States Supreme Court today, will have more far reaching effects than any trust prosecution ever before appealed to the highest tribunal of the land.

It is argued that the recent decision against the Standard Oil Company is one of the most potent supports the government has in the case against the tobacco trust. It establishes the principle the government has been fighting for in all the trust proceedings, that a combination which exists by the means of a corporation owning stock of others is contrary to the Sherman law and that such stock ownership may be a device that constitutes a stock agreement in restraint of trade.

The case against the tobacco trust was instituted by the government to obtain the dissolution of the alleged monopoly which practically controls the manufacture and distribution of tobacco and all its products in this country. The hearing in the Supreme Court was originally set for Oct. 13, but it was postponed because the Attorney-General had not had time to make a thorough preparation, such as he considered the importance of the case required.

The prosecution of the tobacco trust is practically akin to that of the Standard Oil Company, which the circuit court in a united opinion on the part of the presiding judges declared was operating in violation of the Sherman anti-trust law. Thus it will be seen that the tobacco case is the first of the big trust causes to reach the highest court in the land. It may require a year for the now much-talked-of Standard Oil case to reach the Supreme Court; before that time it is expected that the decision in the tobacco case will be a matter of history.

Upon the decision of the suit against the tobacco trust will largely depend the future course of the government as to its trust-breaking program. A decision in the tobacco case will mean more to the government or the corporations, than the disposition of the Standard Oil case, owing to the intimate business relations it maintains with the retail business of the country. The head of the family knows all about tobacco when he may not care a rap about oil.

Again the tobacco case affords the Supreme Court of the United States its first opportunity to pass upon the whole trust question. For that reason it is expected to clarify the situation, and let both the government and the corporations know how they stand under the law, and to what extent the law has been violated.

## REFORMERS STORM THE NATIONAL CAPITAL.

WASHINGTON, Dec. 13.—For the purpose of influencing congressional legislation toward total abstinence, suppression of drug habits and "whit slave" traffic, as well as prohibiting Sabbath breaking, a reformers' convocation, backed by national reform organizations, is here today.

## UNABLE TO DETERMINE STRENGTH OF TROOPS

BLUEFIELDS, Dec. 13.—Zelaya's army is making no move to attack Bluefields today.

Scouts sent out are unable to determine the strength of the government troops.

The city is recovering from its scare and calm again reigns.

General Chamorro has arrived from Greytown with 300 revolutionist soldiers, and it is believed he will be able to protect the town. No American marines have been landed.

## SUPREME COURT PASSES ON CASES OF CLINTONS.

AFTER BEING TRIED FOUR TIMES FOR ARSON, THEY WILL SERVE THEIR SENTENCE IN PRISON.

The State Supreme Court this week affirmed the decision of the Circuit Court of the Seventh Judicial Circuit in the case of Edward and Buck Clinton, charged with and convicted of the crime of arson, committed near Oak Hill many years ago. Edward Clinton, the old man, will have to serve two years, and Buck Clinton, his son, will have to serve ten years in the State penitentiary, says the DeLand News.

The history of the case is quite interesting and shows how long one can fight off conviction and sentence if he has money. The Clintons have been tried four times in this charge of arson—three times in Orange county on change of venue and once in Volusia county. They were convicted in Volusia county and twice convicted in Orange county. One of the trials in Orange county resulted in a mistrial. Three times has the case been carried to the Supreme Court and twice the verdict of the lower court has been set aside by the Supreme Court. Unless the pardoning board steps in and grants them a pardon they will have to serve out the sentence.

Edward Clinton is one of the parties charged with the murder in the Packwood case of many years ago.

During all this litigation the State was represented by County Solicitor J. W. Perkins, and Landis & Fish, who were employed first by private parties and later by the county to assist in the prosecution.

The defendants were represented by S. J. Hildburn, of Palatka, Robert W. Da is, of Tampa, and L. G. Starbuck, of Orlando.

When they were first arrested for the crime, the Clintons owned considerable property around Oak Hill, and a large herd of cattle, all of which has gone to attorneys and court costs.

## FEAR OF CHOLERA DRIVES CZAR FROM CRIMEA.

SANITARY CORDON ADDED TO SECRET SERVICE—NO LOCAL FOOD USED.

ST. PETERSBURG, Dec. 13.—Owing to the spread of the cholera epidemic throughout Crimea, the Czar and imperial party have curtailed their stay at the Livadia Royal Villa for more than a month and leave today for the capital. Health officers seem powerless to check the cholera, which has now afflicted every city and village in the Crimea.

To protect the imperial family, a sanitary cordon was added to the triple ring of secret service men who always surround the Czar's villa, and no one was allowed to approach the royal residence. So great was the fear that the dread disease will reach the ruler, that no supplies for the royal household were procured in the neighborhood. Everything used at the villa was rushed from the North on special express trains.

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of by-gone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the State of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements.

Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the State is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian River oranges.

New Smyrna has no bonded indebtedness and the tax levy is low.

A point that no tourist should fail to visit is the ruins of the Old Spanish Mission which stand somber and alone about one and a quarter miles southwest of New Smyrna. A good road leads to the place and the trip can be easily made by an automobile. Silent, in the great pine flats by the margin of the forest, is this place of pilgrimage for the pious; this rendezvous for the picnicer. The ruins are extensive, and while there is no authentic history of their origin, it is presumed that the Mission was built by the Franciscans in the days when the once powerful Kingdom of Spain first planted its flag upon what is now American soil. It was built of coquina, the roof being of the same material, cut into thin slabs and covered with cement plaster. Extensive gardens surrounded it, which were enclosed by a stone wall, portions of which still remain. Visitors usually come in parties merry and curious but the spell of the place soon falls upon them and they separate to sit alone, silent and meditative, under the arches or beside the ancient well.

## CORONADO

Is situated on the peninsula opposite New Smyrna and is connected by a good road and bridge over the deep current of Indian River. Here you can put aside your conventional garb, breathe in large and deep the salty tonic of the sea and enjoy yourself to your heart's content with rod and reel in row or sail boat or in the ocean surf a short half-mile away. The great varieties of fish inhabiting the river and lagoon pass through the channel from the sea beneath the bridge. From verandas, upper balconies and windows you behold the magnificent river, the distant lagoons and islands, the forest-covered peninsula and the vast reaches of the Atlantic Ocean.

ORMOND is five miles north of Daytona, located on the western bank of the Halifax River. The location of the town permits of good drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach. Many fine residences are maintained on either side of the river, most of them embellished with subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

The town is very cosmopolitan, has an excellent graded school, several churches, a fine public library, up-to-date places of business and comfortable and convenient hotels and boarding houses.

Ormond has many of the Florida attractions—fine fruit, good fishing, excellent automobile, safe boating, salubrious climate and pleasant walks and drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, Breton Inn. The former occupies a position overlooking the Halifax River, while the latter has as its outlook the magnificent beach and the broad Atlantic.

The walks in all directions are particularly attractive, and the arbors, shady and inviting spots and romantic nooks are crowded with rustic seats which are mute invitations to enter into the enjoyment thereof.

Besides the broad, smooth ocean beach there are many drives for carriage or automobile—long drives and short drives; drives through groves of golden oranges; drives through dense tropical forests to Spanish ruins; drives to the ancient Causeway built by the slaves of planters of long ago, and drives to the plantations of hospitable settlers, whose places are replete with the interest of Southern fruits and flowers.

One of these interesting plantations is Number Nine, located on the peninsula, five miles north of the Hotel Ormond. Here you see a fine orange grove, together with great varieties of other sub-tropical fruits and flowers.

Five miles further on you come to Moundgrove, one of the finest orange groves in this section of Florida. Moundgrove is on the headwaters of the Halifax River and is amid pretty surroundings. The place is reached by a good road (passing Number Nine) and is a drive all tourists may enjoy.

**DELAND**, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that Deland is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to Deland Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute.

From Deland automobiles go south to Ocala, 18 miles, via shell and hard roads, most of which are graded. Ferry near Ocala and east can then continue to Sanford and Orlando by hard road. There is a shell road from Deland to Orange City, five miles, and a good road from Deland to Lake Helen, a like distance.

Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

## ORANGE CITY

The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

## Heart to Heart Talks.

By EDWIN A. NYE.

## LOVE SPEECHES VERSUS DEEDS.

"Do you love your wife? If you do, then do not fail to tell her so. Let no day go by without some word of affection."

Thus do the advisory writers admonish the married man.

Which is very well, but—

Here is a Minneapolis woman who has sued her husband for divorce because he spends his time making love to her instead of working to support her!

In her complaint this woman says her husband kisses her until she is sick of his attentions. He calls her all manner of pet names, but does nothing to help her.

Doubtless she thinks with the old saying that "fine words butter no parsnips."

For this husband not only fails to butter the parsnips, but compels her to hustle about to get the parsnips.

The wife is right.

Protestations of love with nothing to back them up are like the crackling of thunders under the pot—noise without significance.

Love is of account only in action.

Love is proved by deeds. It must do as well as say. Words may satisfy a heart hunger for awhile, but in the meantime the stomach may grow hungry, and as between heart and stomach the former can stand the longer siege of poverty.

Even the novelist, who is expert in love conversation, is under compulsion to get a move on his lover that he may verify the soft talk.

The husband who really loves his wife will strive with all his might to save her from hardships and to give her all the comforts and as many of the luxuries of life as he may be able to secure.

Love is another word for sacrifice. Love means self denial.

The husband who loves his wife will be not only affectionate, but helpful. Love is unselfish. It does not take, but gives.

There are plenty of husbands who are short on words. In speech they are naturally unimpressive. They are not given to expression. But they are genuinely in love with their wives.

In fact, most men are built that way. Boastful love disclosures are not enough in their way, but unless backed up by action, soft and romantic selfness they are just so much air or a tinkling cymbal.

A man may be as fervent in love speeches as Moses himself, but count start in devotion to the day of his death.

## MORE "BOOZE" THAN EVER,

## SAYS JUSTICE H. T. TITUS.

## A NUMBER OF ONE-EYED TIGERS

## DOING BUSINESS IN THIS

## BAILIWICK, THE JUSTICE OF

## THE PEACE ALLEGES.

"There are more blind tigers doing business in and around Daytona than ever before," said Henry T. Titus, justice of the peace, to the Daily News this morning.

"They are sicker than they used to be," said Mr. Titus. "It is not my business to go out and hunt them down but I will do it as I have in the past, unless some change takes place. Whenever a case of this nature is brought before my court on preliminary examination, if the evidence warrants it is my duty to bind the case over for trial before the Criminal Court of Record. It is no reflection on Sheriff Smith that these tigers exist. He has done more to suppress the illegal sale of liquor than any man in the county—but he cannot be everywhere at once."

"I am told," continued Mr. Titus, "that there are four places in Waycross and several in Midway where liquor is sold, but it is almost impossible to get evidence, as persons who patronize such joints will often perjure themselves rather than give correct testimony. There are other tigers peeping from other places, too. Some of the city marshalls ought to be able to put a stop to some, at least, of this illegal traffic."

## "WHAT ARE THE LESSONS

## HE WOULD TEACH?"

At the Baptist church yesterday, Rev. A. L. Abernethy took the evening lesson from the 111 v 6 chap of the Gospel of St. John: "And Jesus took the loaves and when he had given thanks he distributed to the disciples, and the disciples to them that were set down; and likewise the fishes as much as they would eat."

The speaker drew a graphic picture of the trials and discouragements of the Master in bringing his followers to a higher spiritual plane, and told how he had drawn aside for hours, and his disciples taking a boat and skirting the north shore of the Sea of Galilee, also how the people, blindy clamoring, a hungry, tired multitude followed on shore, and were there when he landed, waiting for him to minister to them, both physically and spiritually. The Master, sorrowing over them as children gone astray, attended their physical needs first, taking the five small barley loaves and the two fishes, brought him by the doubting Phillip, and by miraculous power feeding the hungry people and having abundance to spare.

The speaker then asked, "And what are the lessons he would teach? First, That He is the sustainer of all life. He creates all the conditions that supply means of life: the cattle of the fields and the grass, and the flowers. Second, He gives alike to all nations and people. There is no high and no low with him—no Jew and no Gentile. Third, that the supply is unlimited. Good measure, piled up, heaped together and running over, are the gifts of His hand. The supply is always greater than the demand.

## MRS. HINKS, THE HOSTESS.

The parlors of the Magnolia, Ridgewood avenue, were filled with a bright company of ladies, friends and guests of the house, on Saturday afternoon from 3.30 to 5 o'clock, the occasion being an afternoon tea, given by the hostess, Mrs. Celeste Hinks. The time was delightfully passed in social converse over the cup that "cheers without inebriating," and the company broke with the pleasantest impression possible of the social qualification of their hostess.

## COMMODORE BURGOWNE'S

Evidently the Stearns automobile people are reaching out for some of our good money. Their wagon is guaranteed to make 75 miles an hour. We see the Commodore's finish.

## A SANITARY DRINKING

## FOUNTAIN IS PROPOSED.

Editor Daily News: In Wednesday's issue of your paper an article entitled, "Children to Have Individual Cups," reported a resolution of the kindergarten mothers' meeting to supply each little one with a drinking cup.

The whole public school, big and little, might easily be benefitted by the installation of a sanitary drinking fountain where the use of cups is eliminated.

Such fountains are placed in many schools and parks and must, assuredly be of great hygienic value.

I should be grateful if you would call the attention of the school board and the public to these drinking fountains.

Yours truly,

(Mrs.) ALEXINA WILDER.

## DID "JOY RIDERS"

## BREAK AUTO CLUTCH?

Mr. and Mrs. L. F. Steere, of Cooperstown, N. Y., who came down from Jacksonville by rail the first part of last week and are at their home on Beach street, were very much disappointed not to have made the trip in Mr. Steeres' new Buick, as they had intended. Mr. Steere on arriving in Jacksonville, stored his machine in one of the public garages for the night, and did not discover until he had left the city that the clutch of the auto had been broken, an accident which occurred, no doubt, in a joy ride taken by some of the employees of the garage the night before.

Charles Moore, of Anderson, Ind., arrived last Thursday night, and will spend the winter with his uncle, W. M. Moore and family, on Ridgewood avenue.

ELIZABETH BRADFORD DU PONT, SUED BY POWDER KING.

Aside from the Du Ponts and Bradfords several other wealthy Delaware families are involved in the slander suit brought by Alfred I. Du Pont against his cousin, Mrs. Elizabeth Bradford Du Pont. The case has stirred society circles all over the east. Mr. Du Pont, who is vice president and the active head of the Du Pont Powder company, charges that Mrs. Elizabeth Bradford Du Pont circulated stories derogatory to the character of his wife, who has never been popular with his relatives. Mrs. A. I. Du Pont married the powder king after she had obtained a divorce from her first husband, who was Du Pont's secretary.

**Scriptural Carving.**  
A Scriptural method of carving fowls when in secular company was claimed by a witty clergyman who, having been asked to carve one day, said, "Inasmuch as you demand it, I will carve the fowl according to Biblical principles." "Yes," exclaimed the hostess, "act according to the Scriptures." The theologian therefore began the carving. The baron was tendered the head of the fowl, the baroness the neck, the two daughters a wing apiece and the two sons a first joint, the carver retaining the remainder.

"According to what interpretation do you make such a division?" inquired the host of his guest as he regarded the clergyman's heaping plate and the scant portions doled out to the family.

"From an interpretation of my own," replied the clerical wit. "As the master of your house the head belongs to you by right; the baroness, being most near to you, should receive the neck, which is nearest the head; in the wings the young girls will recognize a symbol of their noble thoughts, that fly from one desire to another; as to the young barons, the drumsticks they have received will remind them that they are responsible for supporting your house, as the legs of the capon support the bird itself."—London Standard.

**Camel a Delicate Beast.**  
Contrary to the widespread but erroneous opinion, the camel is a very delicate animal. A camel that has worked fifteen days in succession needs a month's pasturage to recuperate. It is liable to a host of ailments and accidents. When a caravan crosses a sekha, or dry salt lake, it is rare that some of the animals do not break a leg. If the fracture is in the upper part of the limb there is nothing for it but to slaughter the animal and retail its flesh as butcher's meat.

If the lower part of the limb has been injured the bone is set and held in position by means of splints made of palm branches, which are bound with small cords. If no complications ensue at the end of a month the fracture is reduced. When it is a case of simple dislocation the injured part is cauterized with a red-hot iron, then coated with clay and bandaged with a strip of cloth. Fifteen days afterward the animal is generally cured.—Vulgarisation Scientifique.

**That's All He Forgot.**  
The cab containing the absentminded man and his family drew up in front of the Broad street station. There emerged the absentminded man, his wife, three children, a birdcage, a dog on a leash and innumerable bundles and parcels. The absentminded man paid the driver, gathered up the bundles, dropped them and pressed his hand dramatically to his forehead. "There," he exclaimed, "I just knew I had forgotten something!"

His wife carefully counted the three children, saw that the dog and the birdcage were intact and took an inventory of the bundles.

"We seem to be all here," she remarked. "I am sure we have everything. What do you think it is you have forgotten?"

"Why, bless my soul!" cried the absentminded man. "Now that we are here I've forgotten where we intended going!"—Philadelphia Ledger.

**Tongue Caught Ermine.**  
"This stole is of tongue caught ermine, hence its high price," the salesman said.

"Tongue caught ermine, eh?" "Yes, madam. You see, the ermine's coat is extremely delicate. A trap tears it horribly. So the trapper catches it by the tongue."

"The ermine is fond of ice. The trapper smears heavy knives with grease and lays them here and there on the snow. The snow white ermine, lithe and quick, rushes up in the zero weather, licks what he takes for a sliver of ice, and, lo, is doomed, for the steel of the heavy knife has frozen fast to his tongue."—Exchange.

**Longest English Lawsuit.**  
The longest lawsuit ever heard in England was that between the heir of Thomas Talbot, Viscount Lisle, and the heirs of Lord Berkeley respecting certain lands and possessions not far from Wootton-under-Edge, in the county of Gloucester. It commenced at the end of the reign of Edward IV. and was pending till the reign of James I, when a compromise took place after it had lasted about 120 years.—London Answers.

**Unheeded Remonstrances.**  
"Was that you scolding a poor dog that was merely indulging his natural inclination to howl at the moon?" asked the kind hearted man.  
"Yes," answered his neighbor.  
"Don't you know you ought to be kind to dumb animals?"  
"That dog isn't dumb; he's only deaf."—Washington Star.

**There Was.**  
The disheveled bard entered the weary-eyed editor's apartment.  
"Is there an opening here for a poet?" he inquired.

"Yes, indeed," replied the editor, touching a button underneath his desk, and the next instant the poet disappeared through a trapdoor in the floor.—Exchange.

**Dragon Flies.**  
Dragon flies can catch insects when flying at the rate of forty or fifty miles an hour.

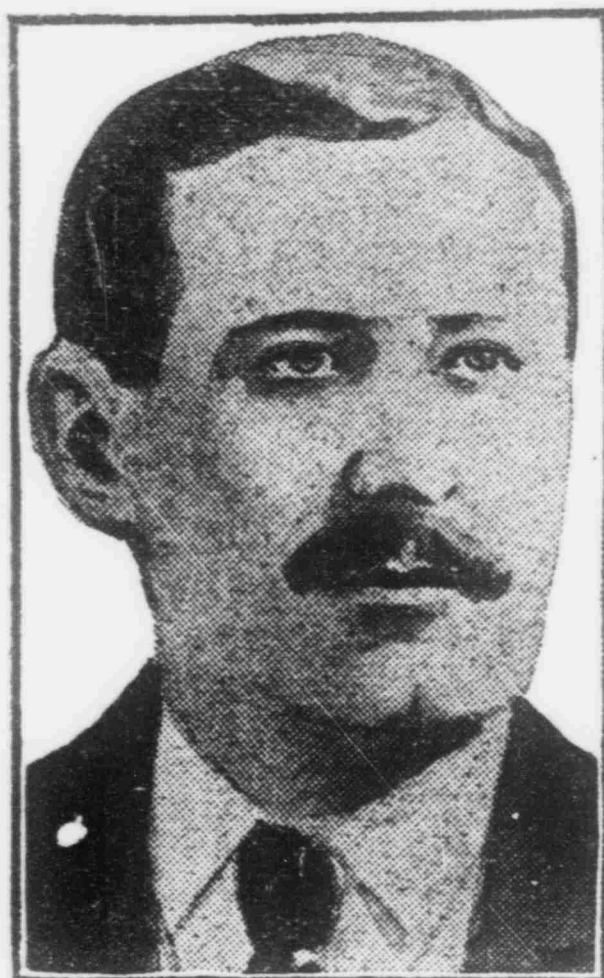

**Gilt Frames.**  
Apply the white of an egg with a camel's hair brush to fly specks on gilt frames and they will disappear.

**Starting It.**  
Mrs. Naggit—I don't feel like myself tonight. Mr. Naggit—Then we ought to have a very pleasant evening.

Flint Filled Butter.

Butter that was sold to the English working classes of the fifties was adulterated with ground flint. The flint stones were ground and manipulated into a substance called "soluble silica." This dissolved in water formed a stiff jelly, which was mixed with the butter, fresh salt and coloring matter being added. The compound resembled a very good looking dairy made butter.
